

ASX / Media Release

5 October 2017

ASX code: **K2F**

K2fly Awarded New Contract Win

Highlights:

- K2F announces sales of its Infoscope Enterprise Land Management solution to new account in the mining sector.
 - K2F expands the use of its market leading tenement management software beyond Fortescue Metals Group and Westgold Resources Ltd
-

Leading technology company K2fly Limited (**ASX: K2F**) is pleased to announce the signing of a licence contract for its Infoscope software to API Management, which is the manager of assets owned by the Australian Premium Iron Joint Venture and the Red Hill Joint Venture. These entities are working in the West Pilbara Iron Ore Project.

K2fly's Infoscope solution for API is the Enterprise Land Management System, which has a good track record in the Resources' sector. The software will be delivered in October 2017 and will be deployed as a Software as a Service (**SaaS**) solution.

Commenting on the new contract award, K2fly CEO and Executive Chairman, Brian Miller stated,

"This is our first "new name" client for the Infoscope solution in this Financial Year. Our successful tender was a result of a strong fit between the Infoscope software solution and API requirements. We are specialists in the field of tenement management and our software was exactly what they were looking seeking."
